#### CIRCULATION WEEK ENDING NOV. 11th, 1922 11,961

#### THE SHIP SUBSIDY.

That there are some who are opposed to the idea of appropriating govit, but that time likewise carried differping of other countries.

is necessary to deal with the matter in the light of present day condi-tions. Legislation could of course be changed or we could d'ruose ment that promises much relief in that

under conditions which were not what aught have been ordered had there

It is to be remembered that we are micavoring to keep our fing on the high seas in commercial lines in competition with shipping in other countries which are favored with a subsidy. Likewise while our ships are idle we are also paying a considerable sum for the keeping them in shape and guarding them. It is a case where strong an appeal as to others when an The Abolition of Inheritance. By Harmany of them are constantly adding to appeal is made in behalf of Children's their expense because of the cost maintenance when they are not produc- are inclined to be negligent of what the of course to be paid by the government schools will be a guide to that. and we are not getting anything for it. Such a view may be right to a de-

turn at all.

#### COUNTRY SCHOOLS.

as great need for the proper education the development of a love for good of the children of the country as of the books.

upon the appearance of the school right new.

Out in the middle west a spaaker betore a gathering of citizens expressed the fear that because of shortcomings in education there would develop in this ord on the pleasant ones; country a peasant class similar to that in Europe, and that because of ignorance they would be bound to the soil. That fear may exist but it seems to

far Tetched, /Indications for the most part appear to be to the contrary. The demand for an education for the'r children is not decreasing in the counby because many of the farms are now nhabited by many who have come from Europe. They not only demand an eduation for their children but they want the best and are not satisfied that should stop with the grammar scho Nevertheless the rural school problem is one of importance. It should not be acalected, even though it becomes necsary because of the small number of shildren in some districts to provide the neans of transporting them to others, which is being quite generally followed which is being quite generally followed anxious to give their support to such a free aim in the country must be for bet- worthy organization as the American er schools just as emphatically as in

## THE BERLIN UPSET.

Julit what the end of the Wirth cabiact is going to mean in Germany will be indicated by the type of a cabinet Dust sugceeded it. It is not the first time that a Wirth cabinet has resigned. On the previous occasion he was asked to select a new one. Now that has gene, of the withdrawal of certain ort it had been receiving, a hand at the helm is to be tried from shigh it is apparently hoped that the support necessary to carry up the gov-support oan be gained from the combiof conservative parties.

If Germany should be listened to with all other information denied, that coun- ple of that state, try is having a nard struggle. At the time of the fall of the Wirth cabinet Germany replied to the reparation sit- glory and prestige that we won in the

those who have been observing Germany with more or less of a critica eve report that it is a hive of industry. There are those who are totally opposed any reparation while there are those who are ready to pay some of it, and yet there are indications that Germany is endeavoring to duck its responsibilimaking what might be called, even by

those who were once the enemy, deter-mined efforts to pay.

Chanceller Wirth has failed to get the unity in the government that is necation. It is a job of no small propotions, though his successor will have the benefit of such mistakes as he made even though the same handleaps may be encountered. The selection of an other than Dr. Wirth to pick the cabinet indicates that the chances for greatsuccess lie in that action.

#### MOVIE CENSORSHIP.

What is going to be the result of th referendum in Massachusetts concern ing state censorship of motion pictures This question as referred to the people drew out a big vote but disapproval of the idea was registered by a large ma-

Does this mean that the people of the neighboring state are satisfied with the pictures which have been and are being presented to them, that they need of protecting the youth through consorship or that they have been im pressed by the attitude which the producers have taken and are confident clean and wholesome pictures can best on assured in that manner?

One thing is apparent, if the people

there is no reason to suppose but what eriment funds for the purpose of a ship there is no reason to suppose but what you and I have always been such good subsidy is not strange. There was a they did, they do not approve friends, and I wanted you to know the time when many more were opposed to cided upon for state consorship. They quitting him as my physician. Beauty have had an opportunity to see what specialist, indeed!" restrictive legislation surrounding ship-ping that existr today and then this country was not in possess on of a great tain conditions made it evident that

. If the course followed has made good impression upon the people of the coins to make your skin all red and unstate to the north, and possibly other sightly. And the doctor told me just the received his academic education at the ning. In general the frequency of thunstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates, it should not be the coins to make your skin all red and unstates. misinterpretaion by he producers. Havchanged or we could decome of our ships at another great sacrifice. But those things haven't been done and it foest things haven't been done and it foest that haven't been done and it foest that there is any sentiment that promises much relief in that ing upon it at all, rather than a decla-ration to the picture business that no "Oh. dear no!" the doctor's wife has Treetion.

We were for a long time loudly calling for a merchant marine. We got it ander conditions which were not what high thave been ordered had thore than the means that the producers have been ordered had thore than the means that the producers have to five a beauty specialist five it."

So that's what he mean! "The meant that it tened to assure her. "He meant that it tened to assure her." "He meant that it tened to assure her. "He meant that it tened to assure her." "He meant that it tened to assure table merchant marine and the question position in the eyes of the public it canthe confronts as of knowing : busy.

Dosition in the eyes of the public it cannot disregard the duty in maintaining to herself in the French misser consider not disregard the duty in maintaining to herself in the French mirror encocite, themselves in those good graces. It "Yes of course," replied the doctor's would be a mistake to regard the ex- wife, keeping her face perfectly serious. pression as other than a reliance on the producers to provide the better plo tures.

#### CHILDREN'S BOOK WEEK.

To some people it may not make as of Book week. There may be those who ing any retugn on the investment. This is children read under the belief that the

The situation is along the same line as gree, but there is nevertheless no small of the wealth that passes by descent, with exceptions in favor of widows; with exceptions in favor of widows; of the children in the choice of good to the government were probably cost-books. It is a matter in which the children of the care and education of invalids and minor children.

It is against the privilege of inheritation of the children of the care and the privilege of the children.

It is against the privilege of inheritation of the children of the care and the privilege of the children.

One Only the content of the children of the care and the privilege of the care and the passes and countrit. But when the isst clephant passed her set. In making its clephant pass themselves. They are entitled to proper to bring the merchant ships into use one for whom there isn't great hopes

developing. Children invariably love books. They are anxious to read and if they cannot tem of get what is fit and inspiring they will Efforts made in behalf of better rural get the other kind. It is therefore an schools are by no means new. It is a effort properly directed when they are problem that is constantly before a encouraged to read but more so when large part of the country. There is just they are given the proper guidance in

the country are entitled to just as good advantages as can be obtained. There advantages as can be obtained. There is hound to be a contrast but education focus in necessarily follow just because to a matter which had not come to their the schoolhouses is costly and ornate.

That there is not the willingness to build elaborate schoolhouses in the country districts creates no great surportance of good books will certainly districts creates no great surportance of good books will certainly districts creates no great surportance of good books will certainly districts creates no great surportance of good books will certain the thoughts of the 'nparents' to a matter which had not come to their succinct, comprehensive and imperial to a matter which had not come to their succinct, comprehensive and imperial to a matter which had not come to their succinct, comprehensive and indicate the progress New the country districts creates no great surportance of good books will certain the country districts creates no great surportance of good books will certain the constitution of the constitution of the constitution of the constitution of the parents and indicate that there succinct, comprehensive and imperial to a necessarily follow got the events which affect the interests and indicate the progress New that greater to the interests and indicate the progress New that greater to the interests and indicate the progress New the course of the country to the constitution of the country to the subjects discussed.
